

Councillor house theft: two held

OUR SPECIAL CORRESPONDENT

Garhachal Police has arrested two men in connection with the theft at the Garhachal residence of Tirumala Congress councillor Sollarahanna Mukherjee on May 28.

The police said Sanku Mani, 36, the prime suspect, was arrested last week after his face was identified with the help of footage of multiple CCTV cameras in the Balayagang neighbourhood where Mukherjee lives.

The cops seemed flummoxed by multiple cameras to track the route through which Mani had fled after the alleged theft. He apparently boarded a south-bound train from the Garhachal crossing, the officers said.

Based on the information the police arrested him from a location in Tumakuru. Acting on Mani's statement, the police conducted a raid in Bellaru on Sunday and arrested Tusan Dhalu, who has minor cuts and bruises, along with his accomplice, Mukherjee's house.

Students frequent Salt Lake thoroughfare Crash risk on cratered road

SUBHAJ SINGUPTA

Salt Lake: A cratered stretch of road between the EE island and the PE island in Salt Lake is witnessing minor accidents and vehicle breakdowns almost daily.

The 60m-long stretch of Fourth Avenue has been the prime suspect, says Jaldeep Mukherjee, Ternaia Academy and Bhojanagar Municipal School along with its frequent bus and auto-rickshaw services.

Earlier this week, a father-sun duo and a Scooty had a narrow escape when the four-wheeler's front wheel fell into a crater. Arunava Shil had one of the wheels and fell on the road with his son Anuraj, a Class IV student.

They were heading back home after buying stationery from the Black market. "I was riding at a very slow pace as the entire road has deep pits and huge craters. I lost control after the front wheel of my Scooty hit one of the craters and we crashed. The car and I had our helmets and luckily we just escaped with minor cuts and bruises, says a father-sun duo, who had been on the road for about 15 minutes.

Call centre 'targets' Australians, 40 arrested

OUR SPECIAL CORRESPONDENT

Elliot Road: Forty people have been arrested on the charge of running a customer-centred call centre on Elliot Road that allegedly targeted Australian nationals, police said.

An officer of Calcutta police said the raid was conducted on Sunday based on information that a fraudulent call centre was running on Elliot Road.

"We have seized 90 monitors and multiple handsets from the call centre. It was operational in the guise of providing customer care services of an e-commerce company. They were targeting Australian nationals," said the officer.

In such cases, where the victims are located outside India, it becomes difficult for the police to get their statements or a complaint from them.

"We have alerted the monitors and the database where the victims can be identified and repairs are yet to begin on several stretchers," the official said.

A few weeks ago, Calcutta police have been able to contact two victims staying abroad and recorded their statements before a magistrate in their city before returning to Calcutta.

Metra reported on Monday that Bhojanagar police, too, had been in regular contact with the American national who has been claiming that their money by gangs operating from call centres.

It is extremely important to identify the victims and record their statements. That strengthens the merit of the case and helps in the conviction of the accused. People who get arrested in connection with running fraudulent call centres often get bail because of lack of a specific complaint from the victim and tend to re-starting the business," a senior police officer said.
